Page 2 #8:59 PM (EST) June 1, 1995

AFTER several minutes of viewing the UFO on 4th ST, I drove on home to retrieve my video cassette. I stopped my Jeep below and spent 10 minutes in the vicinity of this sighting. I quickly studied these features, colors and compass headings, when it began to climb upwards at seemingly a 30° incline. I moved quickly without coming fully in the direction of the machine, as I was going along in a hurry for my excursion. Yes, I remained vigilant to preserve the object for view. Timing began at 8:01 PM. The UFO was then at 12 o'clock high and was the size of a pea, compared to the basketball size earlier on 4th ST.

I AMIN, YES IS ALL TRUE.
